If you are putting in a Second Water Meter for a sprinkling system a plumbing permit is required prior to meter purchase. Sprinkler meters must be plumbed as a deduct meter. (See attached)

Plumbing Permit # _____

1. In accordance with Section 18 of Ordinance No. 187, consumers/property owners are responsible for paying for the replacement of water meters if such meters become damaged through willful or malicious destruction, the meter being allowed to freeze, and the meter being allowed to have hot water back up into it. Consumers/property owners are also responsible for replacing any stop box damaged by activity occurring on their properties.
2. In accordance with Section 12 of Ordinance No. 187, "All premises using water shall be metered." Therefore, contractors must install purchased water meters at the earliest point possible during the construction process.
3. In accordance with Section 5 of Ordinance No. 187, "No person shall tap any water main or distribution line...without first obtaining a permit from the Village." Therefore, contractors must not tap into any water line or water main without obtaining a permit to do so from the Village.

I have read these ordinance regulations and installation requirements and agree to abide by these provisions and also agree to abide by all other provisions of the Village of Almont Water Utility Ordinance, a copy of which I may obtain at the Almont Village Offices in accordance with established policies and procedures of the Village. **An inspection on the connection to the main is required from the Department of Public Works at the time of connection. Failure to do so may result in the issuance of a stop work order. By signing below, I acknowledge I have read the above.**
